

February 19, 2015

Dear Business Partner:

You are probably already aware of ongoing efforts by the Payment Card Industry Data Security Standards Council (PCI DSS) to create and maintain a data security standard for the protection of payment card account information. The PCI Data Security Standard (the "Standard") is a multifaceted security standard that includes requirements for security management, policies, procedures, network architecture, software design and other critical proactive measures.

As a business partner, your organization may be involved in efforts to achieve compliance and certification with the Standard. In support of your efforts, Travelport acknowledges responsibility for the security of cardholder data in our possession. Travelport was certified on the date of this letter as a PCI 3.0 compliant service provider. Our PCI-DSS services include:

HOSTING PROVIDER	MANAGED SERVICES	PAYMENT
Hardware	Systems security services	Processing - Internet
Infrastructure / Network	IT support	Payment Gateway/Switch
Physical space (co-location)	Physical security	
Storage		

The URL listed below leads to a Visa web site and a published list of PCI compliant service providers:
